TITLE	Racial-Ethnic Distribution of Public Schools: Pupils and Employees. Racial-Ethnic Survey, Division of Equal Educational Opportunities, Arizona Department of Education, 1970-71.
INSTITUTION	Arizona State Dept. of Education, Phoenix. Div. of Equal Educational Opportunities.
PUB DATE	Jun 71
NOTE	96p.
EDRS PRICE	MF-$0.65 HC-$3.29
DESCRIPTORS	American Indians; Anglo Americans; *Ethnic Distribution; *Ethnic Groups; Mexican Americans; Negroes; *School Personnel; *Students; *Surveys
IDENTIFIERS	*Arizona; Oriental Americans

ABSTRACT

Data submitted by administrators of individual schools and school districts and by county school superintendents in Arizona are presented in this survey. The target population of this 1970-71 study included public school pupils in kindergarten through grade 12, certified employees, and noncertified employees. The 6 racial and ethnic categories identified were as follows: (1) Spanish surnamed, (2) other white, (3) Negro, (4) Oriental, (5) American Indian, and (6) other nonwhite. This system was utilized in categorizing pupils as well as certified and noncertified employees. Information about the students was tabulated according to grade level and a district summary was presented for each county in the survey. Information about the employees was tabulated according to job category, and a district summary was presented for each county. A synopsis of racial-ethnic distribution was given for the entire survey population. (PS)

June 30, 1971

The "1970-71 Racial Ethnic Survey" was the first such survey conducted by the Division of Equal Educational Opportunities, Arizona Department of Education.

The information contained in this report is comprehensive and detailed in the effort to present clearly the racial composition (pupils and staff) of Arizona schools. These findings will be utilized by the staff of the Department of Education to increase its effective support of local school districts' efforts directed toward the full realization of our moral and legal commitment to "equality of educational opportunity." These findings provide essential information needed in the formulation of policy decisions - state and local - which will aid in the attainment of the above-mentioned goal.

The Department of Education is of the belief that "performance levels of children" in Arizona's public schools can be improved. A barrier existing in some communities -- should receive attention in order that we truly provide "equal educational opportunity" to each/all of Arizona's children.

W. P. Shofstall
Superintendent of Public Instruction

Acknowledgments

We are grateful to all of our colleagues of the Arizona Department of Education who offered time and suggestions in preparing and conducting the survey, and in producing this report. We appreciate the excellent cooperation of the county school superintendents, district superintendents, and district and local administrators of public schools in providing the Division of Equal Educational Opportunities with the data required for this survey.

Special thanks are extended to Mrs. Bobie King, clerk-stenographer, and Mrs. Edith Heisser, clerk-typist, who provided dedicated and diligent hours of reading, typing, and compiling.

We are indebted to all of the classroom teachers who allowed their already busy schedules to accommodate one more activity.

Thanks to numerous persons who enabled our Division to obtain the first statewide racial and ethnic information.

It is the intent that this report will be used to stimulate equal educational opportunities in all public schools of Arizona.

Introduction

PURPOSE AND SCOPE

The 1970-71 Racial-Ethnic Survey of students and staff in Arizona's public schools was authorized by the Superintendent of Public Instruction and the State Board of Education.

This report was prepared from the data submitted by administrators of the individual schools and school districts, and by county school superintendents. Students and staff representing grade levels from kindergarten through grade twelve comprised the target population.

It is anticipated that this statewide survey will provide the Department of Education with much needed information on the racial and ethnic composition of students and staff--certificated and non-certificated--of school districts and county school jurisdictions.

Data presented will be utilized as a frame of reference to research, plan, prepare, implement, and evaluate reports and projects in terms of equal educational opportunities.

A total of 447,285 students and 33,201 employees were included in this, the first statewide survey.

The Division of Equal Educational Opportunities will analyze these data and will present recommendations to the State Board of Education concerning the encouragement and implementation of equality of educational opportunities in the state of Arizona.

SURVEY BACKGROUND

Prior to this initial project no systematic statewide racial and ethnic survey of pupils or staff in the public schools of Arizona had been made. Only a few districts had compiled similar data, though several schools had prepared surveys for specific funding proposals.

These individual school or district surveys followed no consistent pattern. Information obtained through these surveys was often fragmentary, and the data obtained provided little relationship with the Department of Education research program.

In view of the lack of a comprehensive data base at the state level, the Equal Educational Opportunities Division was directed, in July 1970, to implement the first statewide racial and ethnic survey of students and employees in the public schools of Arizona.

Procedures were presented and discussed at State Department of Education sessions. County superintendents and individual school district administrators also discussed procedures and offered suggestions, resulting in revisions for the survey. The survey was conducted, beginning in February, 1971, as explained under "PROCEDURES".

PROCEDURES

Triplicates of a one page form RES-No. 1-1971 were distributed to school districts and county school superintendents directly from the Equal Educational Opportunities Division. Elementary and secondary school officials used the form to report the number of students and employees in desegregated categories and school district officials and county superintendents completed the form showing the tally of students and employees in the district or county educational division.

Forms and instructions were mailed during the first week of February with a suggestion that the count be made on February 12, 1971. District officials were requested to submit reports in duplicate to the county superintendent. County superintendents were requested to forward the original and one copy to the Division of Equal Educational Opportunities, Arizona Department of Education.

The overall response and cooperation by the school district administrators, and county superintendents was excellent. All reports were checked and sent to data processing by May 5, 1971. Printouts were transmitted from data processing to the Division of Equal Educational Opportunities by May 15, 1971.

EXTENT OF COVERAGE

Eighteen of the state's 287 elementary, high school, and unified school districts did not participate in the survey. Non-participating district enrollment was 8,460 students or 2% of state enrollment. A total of 447,285 pupils and 33,201 employees were reported.

DEFINITIONS

The six racial and ethnic categories utilized were: (1) Spanish surname and other Latin American; (2) Other white: the majority group in the state, i.e., all Caucasians not counted under Spanish surname; (3) Negro: those recognized visually as of African or Negroid descent; (4) Oriental: those recognized visually or by surname as of Chinese, Japanese, or Korean descent; (5) American Indian: regardless of surname, those recognized visually as of American Indian descent or so identified in school or community; (6) Other nonwhite: Filipinos, Hawaiians, Aleuts, Eskimos, and Asians other than those counted under Oriental.

Other definitions for employees included:

1. Teachers-librarians: all classroom teachers, special and vocational education instructors, and librarians with teaching certificates.

2. Counselors-guidance: individuals engaged in counseling or guidance work one-half time or more.

3. Classified-noncertificated employees: included nurses, staff assistants, plant, food and maintenance employees, clerks, typists, and stenographers.

4. Aides: individuals assigned to teacher aide assignments (library, classroom, etc.)-did not include volunteer aides.

5. Business managers: according to district job title; usually assistant superintendents.

SYNOPSIS OF RACIAL - ETHNIC DISTRIBUTION

1. Of 447,285 pupils reported,
   88,294 (19.74%) were Spanish surnamed;
   317,969 (71.09%) were other white;
   17,347 (3.88%) were Negro;
   2,068 (0.46%) were Oriental;
   21,105 (4.72%) were American Indian; and
   502 (0.11%) were other nonwhite
   (Table 1)

2. Of 33,201 employees reported,
   2,875 (8.7%) were Spanish surnamed;
   28,874 (87.0%) were other white;
   733 (2.2%) were Negro;
   91 (0.3%) were Oriental;
   604 (1.8%) were American Indian; and
   24 (0.1) were other nonwhite
   (Table 16)

DATA PUBLISHED AND UNPUBLISHED

This report of the racial and ethnic distribution of pupils and employees presents the following data for both survey categories:

1. State summary

2. County summaries

3. Totals of districts within each county

Data not presented includes the distribution of pupils and employees of individual schools within each reporting district.

Each district superintendent may obtain data for the district and for each school within the district by writing to Equal Educational Opportunities Division, Arizona Department of Education, Suite 165, State Capitol, Phoenix, Arizona 85007.
